Subject: RE: [External] 1163 Kingston Rd - Photometric Plan for ZBL Submission

Good Afternoon Anish,

Sorry I missed your call. I tried giving you a call back, the required Photometrics Plan will be fine to be submitted with the Site Plan application submission. It should be noted that the required Sustainable Development Report should identify that the forthcoming Photometrics Plan will identify that there will be minimal light trespass/spillover onto adjacent sites.

Please include a copy of this email with the application submission.

Please let me know if you have any questions in this regard.

Best,

Amanda Zara Dunn, MES, MCIP, RPP

EXTERNAL EMAIL: This message originated from outside your organization. Exercise caution when replying, opening attachments or clicking links.

Hi Amanda,

Hope all is well. Tried giving you a call and got your voicemail. Wanted to discuss with you the need for a photometric lighting plan in our ZBL submission. Given that we are submitting for zoning only and we do not have a mechanical contractor on board yet, we wanted to explore the option of moving this requirement to site plan.

Please give me a call when you have a chance to discuss.

Thanks,

Anish Panday
